

August 15, 2023

To Whom It May Concern,

This is a recommendation letter for Akshay Kotibhaskar, a remarkable 15-year-old student from Eton College, Windsor, UK, who undertook an impactful two-week internship with our fintech company, Credilingq, in Singapore during the summer of 2023.

During his internship, which commenced on July 8th and concluded on July 24th, Akshay was assigned two key tasks – research, market mapping, competition review, and go-to-market approach for e-commerce sellers especially Amazon sellers and the second being helping us get a head start on the regulatory requirements around General Data Protection Regulation (GDPR) for Europe.

Akshay reported directly to the Head of Growth and Chief Technology Officer. He was proactive in reaching out to his managers and other team members to work collaboratively and seeking guidance on two diverse areas, which showed strong maturity and professionalism. He got up to speed quickly on the business and on the two assigned topics, which enabled him to contribute positively. He is a good communicator and was able to put forth his ideas cohesively.

Akshay published a structured report summarizing the topics, finding, recommendations and next steps. His methodical approach and attention to detail ensured that the report he prepared was comprehensive, accurate, and insightful.

Overall, Akshay Kotibhaskar's internship with Credilingq set the stage for us to accelerate the initiatives and launch a product and helped us gain insights on GDPR. Akshay's dedication, ability to understand new topics and his curiosity are right ingredients for a promising future ahead of him.

I wholeheartedly recommend Akshay Kotibhaskar for his next internship and we would be happy to have him on board again. He possesses the qualities and potential that will undoubtedly lead him to great success in his academic and professional endeavors. It was a pleasure to have him as part of our team.

If you have any questions or require further information about Akshay's internship, please do not hesitate to contact me.

Sincerely,
